

Engineering Honors: Engineering Technology and Industrial Distribution (ETID) Track

ENTC 491 Research Hours -Instructions for course/honors credit

1. Student must find a specific faculty member for advising.
2. Student must register for 3 hours of credit (minimum) under that faculty member to receive course credit. (0-3 variable hours possible for honors credit).
3. Students must submit a proposal with the departmental proposal cover sheet (Page 2) signed by the student and the faculty advisor.
4. Proposal must have final approval before the beginning of the semester from
 - a. Program coordinator and advising office to receive course credit
 - b. Honors coordinator to receive Honors credit
5. Student must write a one to two-page proposal indicating:
 - a. Advisor
 - b. Topic of Research
 - c. Statement of work with a schedule indicating 45 hours of research effort per credit hour (135 hours for a 3 credits).
 - d. Deliverables including final report and presentation. Proposal must indicate format of final presentation including faculty/students who will attend.
6. Final report and presentation must be turned in/completed within one week of final class day of the semester.
7. Final report must include signoff sheet indicating successful completion of research and deliverables.
8. Individual programs must indicate whether ENTC 491 hours that meet these requirements will be used for course credit and how (technical elective, etc).
9. **ONLY THREE HOURS MAXIMUM OF ENTC 491 WILL BE USED FOR COURSE CREDIT.**
